Eight Candidates On Ballots For LCAC Elections

J. T. van Dinter

S. I. Frederick

T. Solognier

E. Erasmus

H. L. Engelen

F. H. Ritveld

E. A. Gonsales

S. K. Rajroop

Eight men will appear on the ballots for the forthcoming Lago Commissary Advisory Committee elections to be held Wednesday, Thursday, and Friday, May 14, 15, and 16. Of the eight, five will be vying for the two National positions. The remaining three candidates will seek the one Non-National opening. On the National ballot are Julio T. van Dinter, Hose L. H. Engelen, Thomas Solognier, Eduardo Erasmus, and Frederick H. Ritveld. Non-National candidates are Seon I. Frederick, E. A. Gonsales, and Samuel K. Rajroop. Mr. Ritveld and Mr. Rajroop are both petition candidates.

An election procedure will be followed similar to that in the recent Special Problems Advisory Committee election, with time card type of ballots being used. Counting the ballots will be done with the use of IBM equipment. The ballots will be distributed and collected by election tellers in the usual fashion.

Of the National group, Mr. van Dinter is running for re-election. On the present committee he is vice-chairman. He is a training instructor in the Receiving and Shipping Department and has been employed by Lago for the past 17 and one-half years. The four additional National candidates are as follows:

Mr. Engelen is an assistant operator in Catalytic and Light Ends. He has over 13 years service. A head zone clerk in M & C Administration, Mr. Solognier, has been with Lago for over 10 years. Mr. Erasmus has been employed by Lago for over 11 years. He is a process helper A on a temporary basis. The only National petition candidate is Mr. Ritveld who is a process clerk in Cracking. His service with the Company totals 11 years.

Heading the Non-National ballot is Mr. Frederick, the only Non-National running for re-election. He is a section head in the office of the Marine Port Stewards. He has been employed by Lago for over 20 years. Mr. Gonsales is an assistant operator in Cracking with over eight and one-half years of service. Mr. Rajroop is the only Non-National petition candidate. He is a photographic assistant in the Public Relations Department with over 11 years of Lago service.

Arreglo pa Pago Na Porta Nobo

Pa conveniencia di empleadonan cu ta usa porta nobo No. 9 (den vecindario di lower Yard pabao di Comisario) arreglo pa pago na e porta aki a worde haci cuminzando cu e siguiente dia di pago ariba 8 di Mei. Durante henter dia tabatin ocasion pa tur cliente haci un adivinacion di cuanto gasoline a worde bendi ariba di promer dia di negocio, completo. (Continúa na pagina 6)

Engineer's Club Holds Process Seminar Series

A seminar on General Refinery Engineering began March 31, under the auspices of the Engineer's Club. Held each Monday evening, the program and the speakers included talks already given on General Refinery Engineering by J. H. Watkins and D. P. Barnes; Maintenance. — Its Planning and Execution, by T. V. Malcolm; Thermal Cracking, by P. E. Ruhter; Steam Turbines. — Electric Generation, by E. M. Wade; and Fractionating Columns, by D. E. Johnson. The last talk, scheduled for May 12, is to be on Experimental and Development Laboratory, by H. C. Miller.

Seventy-three persons signed up for the seminar, including 39 foreign staff, 30 staff and regular employees, two women and two students. Following the May 12 meeting, certificates will be presented to each person who attended the series.

Club Chines ta Derrota Lago High School Pa Titulo di Bond

E team di basketball di Club Chines a keda campeon di e Bond di Basketball di Aruba recientemente organizá cu su victoria di 24-11 ariba Lago High School den wega di Diabierne anochi, 26 di April. E wega pa e campeonato a worde presencia pa un concurrencia grandi di amante di deporte na e veld di Lago Heights.

Denter di algun minuto den promer cuarto di wega na cuminzamento, Club Chines no a laga duda cual lo ta e posible vencedor y tenedor di e titulo. E Chinesnan no solamente tabata sobresaliente pa nan wega ofensivo, pero nan defensa tambe a kibra (Continúa na pagina 6)

ENGINEER'S SEMINAR: The advancement of engineering knowledge in the field of oil refining was the general theme of the series of seminars sponsored by the Engineer's Club. The successful series was attended by foreign staff employees, staff and regular employees, two women and two students.

LECTURA TOCANTE INGENIERIA: Promovimento di conocimiento di ingenieria den terreno di refinamiento di azeta tabata e tema general di e serie di lectura bao auspicio di Engineer's Club. E serie en tabatin tanto éxito a worde atendi door di empleadonan foreign staff, staff y regular, dos damas y dos estudiante.

The Olympiad's Best

OUTSTANDING ATHLETE: O. S. Mingus, Lago general manager, presents Osbart Ifill of the Electrical Department the trophy for the most outstanding athlete in the 12th annual Queen's Birthday Olympiad. Mr. Ifill won three firsts, one second, and one third in five events. R. A. E. Martin, chairman of the Lago Sport Park Board, sponsors of the event, is to the right.

ATLETICO SOBRESALIENTE: O. S. Mingus, Gerente General di Lago, ta presenta Osbart Ifill di Departamento Electrico e trofeo pa e atletico mas sobresaliente den e di 12 Olympiada anual di Anja di La Reina. Sr. Ifill a gana tres promer, un segundo y un tercer premio den e wegananan. R. A. E. Martin, presidente di Junta di Lago Sport Park, ta na banda drechi.

Huge Crowd In Attendance For 12th Annual Olympiad

From early in the morning when the bells of Aruba's many churches tolled heralding Her Majesty Queen Juliana's birthday until late at night when the sky over Oranjestad was brilliantly aglow with multi-colored fire works, most of Aruba's many organizations joined in gala celebration of the day. Throughout the island church services were held, organizations paraded through the streets, athletic contests were held — all in keeping with the significance of the day. For Lago

employees, their families and friends, the big event was the 12th running of the Queen's Birthday Olympiad.

From 10 in the morning when the opening kite flying contest for children started the succession of events, more than 5000 people were in excited attendance. The series of 30 events opened with a welcoming speech by Robert A. E. Martin, chairman of the Lago Sport Park Board, sponsors of the event. Following his welcome to the many spectators, Mr. Martin wished the contestants the best of luck and officially set in motion the running of the 12th Olympiad.

In mid-afternoon, His Excellency, Governor A. A. M. Struycken, addressed the spectators and athletes. Following his introduction by Mr. Martin, the Governor informed all that Queen Juliana was most interested in democratic events such as the Olympiad. He pointed out the Lago Sport Park as a definite advantage for the youth of Aruba. He concluded his short address stating that he would be most happy to inform Her Majesty of the impressive celebration of her birthday by Lagoites and the Lago Sport Park Board.

Mr. Mingus

Mr. Mingus next addressed the spectators. His message was happily accepted when he informed the athletes and fans that he had received notification from New York to employ a local contractor to work on the expansion of the Sport Park grandstand. He explained that approval to do the work at an additional cost through a local contractor was passed upon by shareholders in order that the work may be completed as soon as possible. Mr. Mingus also remarked on the steady progress that has been made at the Sport Park since its opening in March, 1941. He complimented the Lago Sport Park Board for the fine work they have been doing in adding to the growth of the Sport Park and its activities. Mr. Mingus also passed on congratulations to those involved in making the Olympiad such a successful event.

In recognition of the Governor's presence, a parade marched past the official box in which the Governor was sitting accompanied by Lt. Gov.

P. C. Hooghoudt, J. Andreae, F. E. Griffin, O. S. Mingus, B. Teagle, Mr. Martin, and H. DeVries, vice-chairman of the Sport Park Board. Standard bearers led the parade followed by drum majorcttes of Lago High School, the Lago Sport Park Board, and the competing athletes. As the parade passed the official box, the standards were dipped in salute to the Governor. After marching past the official box, the parade circled the field, returned to the Governor's location and stood at attention while the Lago Community Concert Band played the Dutch national anthem.

Two happenings will probably be long-remembered by the athletes involved and the fans that watched them compete. The first, and highlight, of the afternoon was the selection of the most outstanding athlete which went to Osbart Ifill of the Electrical Department.

Mr. Ifill competed in five events and came out with three firsts, one second and one third. His victories were in the 100-yard flat race, 220-yard flat race, and as a member of the winning relay team in the 440-yard race. He placed second in the 440-yard flat race, and third in the long jump. Mr. Ifill was awarded a handsome trophy by Mr. Mingus.

The second event that will long be remembered in the Sport Park annals was the winning of the 100-yard flat race for employees 35 years of age and over by a gentleman with a neck-tie neatly in place. Mr. Martin not only proved he could assist in organizing the Olympiad, but could also win one of the events. This he did without so much as removing his tie!

Weightlifting

On Sunday, April 27, the weightlifting and body beautiful contests were held. As explained by Mr. Griffin in his introductory address, the contests were held on Sunday preceding the Queen's birthday because of the great amount of interest that had developed among employees in weightlifting and the body beautiful. Twenty-eight contestants participated in the contests — the largest number ever to compete in weightlifting and body beautiful since the

Lago Ta Obtene Cifra di Gravedad den Historia

Pa trahadornan e informacion statisticu mas importante tocante record di seguridad cu por worde publicá ta e cifra di gravedad. Esaki ta e cifra cu ta indica e dianan di trabao cu ta worde considerá perdi door di empleadonan kende a sufri un accidente cu a causa desabilidad.

Den caso di Lago, Division di Seguridad recientemente a anuncia cu e cifra di gravedad di refinaria pa 1951 tabata di mas abao den historia. E cifra di casonan di gravedad pa seccion di refinacion tabata .097 anja pasá compará cu .242 pa 1950, of un bahamento di .145. Pa e seccionnan combiná di refinacion y marina, e cifra di gravedad di 1951 tabata .137. Esaki tabata un bahamento grandi den e cifra di e anja anterior di .580.

Manera munstrá door di Division di Seguridad, anja 1951 tabata un anja di trabao sin ningun caso fatal. E tempo cu trahadornan a keda den hospital den 1951 pa motibo di gravedad di un accidente tabata hopi menos cu cualkier anja anterior. Division di Seguridad, referiendo na e bahamento continuo di ambos frecuencia di accidente y cifra di gravedad, ta agregá cu over un periodo di anjanan, esfuerso continuo y combiná di directiva, hefenan y empleadonan y ademá placa gastá ariba aparatonan di seguridad y condicionnan di trabao pa mehorá seguridad a haci operacion di Lago seguro. Tanto frecuencia di accidente y cifra di gravedad alcanzá den 1951 tabata mas abao cu e promedio di otro refinarianan di grandura comparable.

Modo di Calculacion

Calculacion di e cifra di gravedad ta worde haci manera ta sigui:

Tempo Total Calculá na Dia x 1000

Cantidad di Hora di Trabao Pa Cada Trahador

E tempo total calculá manera usa den e formula ta e cantidad di desabilidad contá na dia di acuerdo cu e escala di tempo manera ta estableci door di American Standards Association. Un chempel di tempo calculá den caso di un caso fatal ta 6000 dia. Division di Seguridad a splica cu ora tin un anja sin caso fatal, manera Lago tabatin den 1951, es cifra di gravedad ta abao. Si tin un caso fatal, e cifra lo ta halto.

E cifra di frecuencia di accidente ta worde calculá manera ta sigui:

Cantidad di Accidente Cu Perdida di Tempo x 1,000,000

Cantidad di Hora Traha pa Cada Trahador

E American Standards Association ta defini un accidente como perdida di tempo ora un empleado a haya un accidente durante su empleo y no por traha su siguiente periodo regular di trabao stipulá.

Den calculamento di tur dos cifra, e cifranan 1,000,000 y 1,000 ta cifranan arbitrario obtení door di American Standards Association y aceptá door di Instituto di Petroleo Americano. E cifranan tambe ta worde usá door di National Safety Council pa tene concurso di seguridad. Den e cifra di frecuencia, e cifra milion ta worde usá como operacion continuo ta aumenta horanan trahá pa trahador masha rapido.

TRINIDAD CARNIVAL: One of the highlights of the recent Trinidad Carnival was the Esso Float. With the theme "Oil - the Product and Pillar of Freedom," the float carried a world globe flanked by an oil derrick and gas pump. The center figure over the globe represents General Dwight Eisenhower. CARNAVAL NA TRINIDAD: Un di e vistanan mas hunita di carnaval reciente na Trinidad tabata e Flota di Esso. Cu e lema "Azeta — e Producto y Pilar di Libertad", e Flota tabata carga un globo mundial cu na cada banda un perforador di azeta y un pomp di gasolina. E figura den centro ariba e globo ta representa Generaal Dwight Eisenhower.

Schedule of dates when members of the Lago Employee Council will be present at the LEC Headquarters (1-4 p.m.) during the balance of May, for the purpose of conducting Council business:

- B. K. Chand & S. Luydens May 16-23-30
E. Croes & E. V. Cato May 12-19-26
J. Nunes & S. Howard May 14-21-28

O. S. Mingus Opens New Servicenter In San Nicholas

Joe Oduber's new Esso Servicenter in San Nicholas opened May 3 with a gay morning of prizes, free balloons and bubble-gum for the children and free gasoline for the first eight motorists who stopped at the shiny new Esso pumps.

Lago's general manager, O. Mingus, remarked in a brief opening comment that the new Servicenter "is a mark of progress in Aruba, particularly in this motor age. It is a real milestone," he said.

Mr. Mingus then cut the ribbon signifying that the station was open for business and handed the station keys to Mr. Oduber, the Servicenter's dealer-operator.

J. I. di Costa, of the Cracking Plant, was the Servicenter's first customer. Along with seven other motorists he received five gallons of Esso gasoline free of charge. In addition, a key chain with built-in flash light was given to each purchaser of Fls. 4 worth of products, and to each customer who bought Fls. 2.50 worth of products went either a can of Simoniz Kleener or a bottle of liquid insulator for automotive wiring.

Each customer throughout the day was allowed to enter his guess as to how much gasoline would be sold during the station's first day of business, with a free wash, polish and lubrication job to go to the winner as a demonstration of the services available at the new Servicenter. The winner was R. H. Abrahams, who guessed 3645 gallons. Actual sales the first day were 3633 gallons.

Official Guests

Many guests were on hand, including members of the press, government officials including Lt. C. A. de Jagar of the Aruba Police, and Mr. A. van den Berg, head of Aruba's Public Works, as well as a number of officials from Lago.

Several hundred people showed up for the opening and the children especially seemed to enjoy scrambling for the free helium-filled balloons and the hands-full of bubble-gum given throughout the morning.

With cars lined up in both directions at all four pumps and the nine attendants working on the double, it looked as though Joe Oduber's Esso Servicenter was off to a good beginning. Pictures will be published in next issue.

C. Walker ta Tuma Retiro; E. Breuver Nombrá Como Foreman di Pipe Dep.

Como resultado di retiro di C. W. Walker, Foreman General di Pipe Department, Benjamin J. Breuver a worde promoví pa e posicion aki. Sr. Breuver a cuminsa su servicio den Pipe Department na 1935, como un pipefitter primera clase.

Na November 1941 el a bira un planeador den Pipe, Mason and Insulators. El a worde promoví pa posicion di "assistant general foreman" di Pipe Department na April 1947. Su ultimo promocion a drenta na vigor dia 28 di April.

Sr. Walker, kende a tuma retiro a completa 33 anja di servicio cu Compania Jersey. El a cuminsa su empleo na Februari 1919, cu Midwest Refining Company den Estados Unidos. Sr. Walker a worde transferi pa Aruba na Maart 1930, como un subforeman den Pipe Department. El a worde promoví pa posicion di general foreman 1 na Januari 1945, y despues el a haya posicion di general na September 1947.

Promer cu su retiro luna pasá Sr. Walker a recibí regalo for di varios grupo. Entre regalonan cu el a recibí tabatin di miembran di M & C Department y di su amigo y companjeronan di trabao den Pipe Department.

(Mira pagina 8 pa retratonan di retiro di Sr. Walker.)

Multitud Grandi A Presencia di 12 Olympiada Anual

For di tempran den mainta ora e kloknan di e hopi misanan di Aruba tabata resoná anunciando cumpleaño di Su Mahestad Reina Juliana te laat den anochi ora e cielo ariba Oranjestad tabata brillantemente iluminá cu fuego artificial di multi colores, mayoria di e organizacionnan di Aruba a uni den e celebracion di gala di e dia. Ariba henter isla sacrificio y ceremonio a worde tení den misanan, organizacionnan a tene parada door di cayanar e concurso atletico a worde tení — tur pa motibo di e significacion di e dia. Pa empleadonan di Lago, nan familia y amigonan, e evento mas grandi tabata tenemento di e 12 Olympiada na ocasion di Anja di La Reina.

For di 10'or di mainta, ora concursionan a worde habrí cu hizamento di flie pa muchanan a cuminsa e cantidad di weganan, mas di 5000 hende tabata presenciá e weganan cu entusiasmo. E serie di 30 wega a cuminsa cu un discurso di bienvenida door di Robert A. E. Martin, Presidente di Junta di Lago Sport Park, organizadornan di e weganan. Despues di su palabranan di bienvenida na e cantidad di mirones, Sr. Martin a desea e participantenan den concursionan lo mehor suerte y a habri e 12 Olympiada oficialmente.

Su Excelencia

Mei-mei di atardi Sr. Excelencia Gobernador A. A. M. Struycken a dirigi palabra na e mirones y atleticonan. Despues di su introduccion door di Sr. Martin, Gobernador a informa tur cu Reina Juliana tabata principalmente interesá den eventonan democratico manera e Olympiada. El a bisa cu Lago Sport Park ta un ventaha cierto pa hubentud di Aruba. El a concluí su discurso cortico bisando cu lo e ta masha contento di informa Su Mahestad tocante e celebracion impresivo di su aniversario door di Lagoistanan y Junta di Lago Sport Park.

Sr. Mingus despues a dirigi palabra na e multitud presente. Su mensahe a worde ricibi cu alegria ora el a informá e atleticonan y amantenan di deporte cu el a ricibi noticia for di New York pa cerra contract cu un contratista local pa haci e tribune di Sport Park mas grandi. El a splica cu aprohacion pa haci e trabao cu un costo adicional door di contratista local a worde dicidí door di accionistanan pa e trabao por worde completá mas pronto posibel. Sr. Mingus tambe a remarca ariba e progreso continuo cu a worde haci na Sport Park desde su apertura na Maart 1941. El a complimenta Junta di Lago Sport Park pa e bunita trabao cu nan a haci pa promove aumento di e actividadnan di Sport Park. Sr. Mingus tambe a felicita esnan cu a contribui pa haci e Olympiada un evento di tan exito.

Un Parade

Na honor di presencia di Gobernador, un parada a marcha pasa dilanti e tribune oficial den cual Gobernador tabata sintá acompaña di Teniente Gobernador P. G. Hooghoudt, J. Andreade, F. E. Griffin, O. S. Mingus, B. Teagle, Sr. Martin y H. De Vries, vice-presidente di Junta di Sport Park. Cargadornan di bandera tabata na cabez di e parade sigui pa e majorette-nan di Lago High School tocando tambor, Junta di Lago Sport Park y atleticonan cu a participa den concursionan. Mientras e parada ta...

MASTER WATCHMAKER: George A. Sulker displays his certificate of watchmaking upon completion of the school's course. Mr. Sulker, who has been employed by Lago for nine years, works in the Instrument Department where watch repair is included in his functions.

DRECHADO DI ORLOSHI: George A. Sulker ta muntra su certificado di drechado di orloshi recibí recientemente for di "Chicago School of Watchmaking" despues di completacion di curso di e school. Sr. Sulker, kende tin nueve anja di servicio cu Lago, ta traha den Instrument Department na unda drechamento di orloshi ta un parti di su trahao.

bata pasando e tribune oficial, e banderanan a worde bahá saludando Gobernador. Despues di a marcha dilanti di e tribune oficial, e parada a pasa rond di veld y a bolbe dilanti e tribune di Gobernador y a para na atencion mientras e Banda di Lago Community a toca y hymno nacional Holandes.

Atletico Mas Prominente

Dos acontecimiento problemete lo worde recorda pa largo tempo door di atleticonan y amantenan di deporte cu a mira nan. E promer evento y di mas principal di e atardi tabata e seleccion di e atletico mas prominente pa cual Osbart Ifill di Depto. Electrico a worde selectá.

Sr. Ifill a competi den cinco evento y a sali tres bez di promer, un bez di dos y un bez di tres den e weganan. Su victorianan tabata den e carreda di 100 yarda, carreda di 220 yarda, y como un participante den e teamnan di estafette ganador di 440 yarda. El tabata di segundo den e carreda di 440 yarda y di tres den bulamento leeuw. Sr. Mingus a presenta Sr. Ifill un trofeo excelente.

E segundo evento cu lo worde recordá pa hopi tempo den anales di Sport Park tabata ganamento di e carreda di 100 yarda pa empleadonan di 35 anja di edad y ariba door di un senyor bon tirá cu un dashi. Sr. Martin no solamente a proba di por asisti den organizacion di e Olympiada, pero tambe cu el por gana uno di e weganan. Esaki el a haci sin nada mas cu kita su dashi!

Hizamento di Peso

Ariba Diodomingo, 27 di April, e hizamento di peso y concurso pa e mehor estatura fisico a worde tení. Manera splicá door di Sr. Griffin den su discurso introductivo, e concurso a worde tení ariba Diodomingo promer cu e Anja di La Reina pasobra di e gran interes cu a worde desaroyá entre empleadonan pa hizamento di peso y e concurso pa mehor estatura fisico. Binti ocho hende a participa den e concurso — e cantidad mas halto cu nunca a competi den hizamento di peso y concurso pa mehor estatura desde cu e Olympiada a worde cuminsá.

Uno di e actornan mas sobresaliente di e grupo di hiza peso tabata L. Taylor kende a hiza 315 liber door di un manobra di hiza e peso te na altura di su schoudernan y despues pusha e peso te ariba di su cabez. Aunque recordnan oficial no tabata inmediatamente disponibel, tabata e opinion cu e peso aki tabata un record den hizamento di peso den Olympiada.

E concurso pa mehor estatura fisico a worde ganá door di Thomas Frederick. Premionan pa tur eventonan ariba Diodomingo a worde presentá door di C. B. Garber.

Lucien J. Lecluse Returns Following 34,000-Mile Flight

The event of a round-the-world flight isn't as remote a possibility as it may seem to many of us. The world trip can possibly lie within participation in the Company's Coin Your Ideas program. Think not? Then check with Lucien J. Lecluse of Light Oil Finishing who recently returned after completing a 34,000-mile global flight.

Upon returning after his fabulous flight, Mr. Lecluse frankly and sincerely stated: "I could not have made the trip had it not been for awards I received for my suggestions in the C.Y.I. I couldn't have made the trip on my regular budget." He also added that he will go again if he is as successful with his ideas as he has been in the past.

In a nutshell, there is no end to what you can do with your C.Y.I. award money. And just to tempt you a little more, here is Mr. Lecluse's story from the sunny West Indies, over the blue Pacific, through the Orient, across the highest mountain tops known and back again via Amsterdam and the roughest waters in the world, the North Atlantic.

Mr. Lecluse left Aruba March 3 with Mrs. Lecluse and their three children for Curaçao. There he saw his wife and children off to Holland for their vacation. His started hours later when he boarded a KLM plane for the first lap of his trip of a lifetime.

From Curaçao, he winged his way to New York via Jamaica, Havana, and Miami. While in New York, Mr. Lecluse reported he took in various shows and other entertainment features of the "big city." He also bought a car for shipment to Aruba. From New York, he flew National Airlines to Dallas, Texas, and across the snow covered Rockies to Oakland and then San Francisco, California.

The Pacific

From San Francisco, the excitement of the big trip really caught up with Mr. Lecluse. His flight was aboard a gigantic three-decker Pan-American Stratocruiser. The first stop on Pan-American's flight to the South Sea Islands was Hawaii. On the enchanted isle, Mr. Lecluse and other passengers visited Waikiki Beach and saw the Hula girl dancers along with other notable points of interest.

When the flight left Hawaii, Mr. Lecluse reported that Pan-American threw one of its famed champagne parties. "That was one party I will never forget," he laughingly admitted. "We had on board with us a group of United States teachers bound for Australia. With them adding to the jovial atmosphere plus the champagne, of which there was plenty, and the general excitement of the trip, it was some party," our world traveler exclaimed. "My stomach ached, I laughed so much!"

Kanton Island

The first stop was Kanton Island — a small island which Mr. Lecluse had never heard about, but an island that was home for some men who knew about Aruba. Mr. Lecluse related that there are about 30 American families living on the island charged with a US air field. Of the men there, a few told Mr. Lecluse they had visited Aruba during the war while aboard Navy tankers. From

Kanton Island he next visited the Fiji Islands. His next stop was one of the places he liked most — Australia. Here he visited his brother for 10 days. During his stay, he went up to the Australian Alps, visited Melbourne and Sidney among other cities, and traveled across the desert country where, he reported, "it was not too hot." Next he visited Soembawa, Lombok, Bali, and Java in Indonesia.

Buddha Temples

Mr. Lecluse's next stop was Djakarta, capital of Indonesia. Our world traveler reported that during his five day stay here, he removed all valuables before setting foot on the street. The reason, according to Mr. Lecluse, is because of the many pickpockets and petty thieves that roam the streets. Next stop on Mr. Lecluse's trip was Bangkok, capital and chief port of Siam. A most memorable incident in Bangkok was Mr. Lecluse's visit to a Buddha Temple. "It all came about when I saw people dressed in attractive orange robes. My curiosity got the best of me and I followed them to a Buddha Temple." Continuing Mr. Lecluse stated: "I watched them take off their shoes before entering the temple and I did like wise. Inside the temple I was awed by the attractiveness and color of the temple's appointments as well as their religious ceremonies." He also made mention of the fact that the temple did not have any benches. All the worshippers knelt on the floor.

Middle East

Next came Karachi, capital of Pakistan, then fabulous Bagdad, capital of Iraq; Beyruth, Arabia, and finally Cairo, Egypt. Tension within the populace was most notable according to Mr. Lecluse. While in Cairo, he noticed places where people were dug in for protection, gun emplacements, and fighter planes continually overheard. He stated he was most surprised at the amount of French spoken in Cairo. "I had rather expected to hear English almost entirely spoken," he remarked. Out of Cairo, he crossed the Mediterranean, Italy, the snow-covered Alps, and before long the plane's wheels touched down in Mr. Lecluse's native land — Holland.

Home

When he landed in Amsterdam the weather was beautiful. Mr. Lecluse added, however, that the next day it snowed. The snow was gone with the arrival of Easter and Holland's countryside was aglow with blooming tulips. Mr. Lecluse, who remained at

(Continued on page 7)

C. Walker Retires; B. Bruever Named Pipe Dept. Foreman

With the retirement of C. W. Walker, Pipe Department general foreman, Benjamin J. Bruever was promoted to fill the position. Mr. Bruever started in the Pipe Department in February, 1935, as a first class pipefitter.

B. J. Bruever

In November, 1941, he was made planner Pipe Mason and Insulator. He moved up to assistant general foreman of the Pipe fitters in April, 1947. His latest promotion was effective April 28.

In leaving, Mr. Walker completed 33 years with the Jersey Company. He started in February, 1919, with the Midwest Refining Company in the United States. Mr. Walker was transferred to Aruba in March, 1930, as a sub-foreman in the Pipe Shop. He was promoted to general foreman in January, 1945, and subsequently was given the position of general foreman in September, 1947.

Prior to his departure late last

WANTED Experienced Stenographers

The Company has a number of positions available for experienced, well-qualified stenographers both male and female.

To qualify for consideration for these jobs, candidates must have 10 to 12 years of schooling; be capable of taking shorthand dictation in English at a minimum of 80 words per minute and accurately transcribing this dictation at a typing speed of not less than 40 words per minute; and must have at least five years' previous experience as a stenographer. It will be appreciated if only persons who can fully meet these qualifications submit applications, as inexperienced candidates cannot be considered for these positions.

All applications, giving complete details of education, dictation and typing speed, previous experience, etc., should be submitted in writing to the Employment Division of the Industrial Relations Department.

month, Mr. Walker was presented gifts by members of various groups. Among the gifts he received were those from members of the M & C Department and his friends and fellow workers in the Pipe Department.

See page 8 for pictures of Mr. Walker's retirement.

TEN YEARS AGO

One of the more interesting topics of conversation around the refinery 10 years ago was the new photographic badges. It was just about this time a decade ago that employees first started wearing badges bearing their pictures. In just a matter of a few weeks over 3000 employees had their pictures taken and new badges issued to them. The remaining thousands of employees were quickly having their pictures taken for the new badges designed to assist in guaranteeing that only authorized persons enter the concession.

The Loading Pumphouse crew received an unexpected surprise in the early part of May, 1942. When they opened a pump, they found a 12-foot length of rubber lining from an eight-inch unloading hose jammed inside. The unwelcome visitor had traveled over half a mile through the pipe before it came to rest in the pump impellor. The rubber lining had successfully negotiated five right-angle turns.

In one of the wildest games of the season at the Sport Park, Artraco defeated San Lucas 16 — 14. Writing in his Sport Park Notes, Bob Vint remarked that "someone had made the suggestion that a running track be built in the Park for future track meets." Bob was of the opinion it wasn't necessary since the base paths resembled a foot track the way the Artraco and San Lucas players raced around the diamond in their 16 — 14 contest.

Home Building Foundation Waiting List

The following list of 279 names is published for the convenience of employees who have signified their desire for a permanent dwelling through the Home Building Foundation. The list represents an up-to-date

record following a complete survey of all old lists, current lists, and contacts. The Home Building Foundation considers the list to be reasonably active. The housing list will be published periodically.

Equipo di Aruba Voetbal Bond a perde contra equipo di Bond di Curacao cu un score di 1-0 ariba Diodomingo, 27 di April, despues di a tabata un wega cu 2-2 e dia anterior den Wilhelmina Stadion. E weganan tabata dos di un serie pa selecta 20 di e mehor hungadornan pa representa Antilla Holandes na di 15 Olympiada Mundial na Helsinki, e verano aki.

E 20 hombernan lo worde selecta door di e Comision di Seleccion di Curacao. Number di e atletanan esochi pa competi den e Olympiada lo worde publicá den futuro. Actualmente, e equipo di football ta e unico representante di Antillanan.

Den wega di Diasabra Aruba a hancia di promer bala. E equipo local a mantene ventahe durante henter

Olympiad's inception. One of the outstanding performers of the weightlifting group was L. Taylor, who, through a "clean and jerk" maneuver, lifted 315 pounds. Although official records were not immediately available, it was believed that this weight is a record in Olympiad weightlifting. The body beautiful contest was won by Thomas Frederiek. Awards for all events on Sunday were made by C. B. Garber.

promer parti di wega y basta rato den segundo parti promer cu e bishitantenan a establece nan promer punto. Muy pronto Curacao a hinea un otro bala y a tuma ventahe. Aruba a hinea di ultimo goal den e wega kedando tabla cu e bishitantenan.

Lago To Play CPIM In Annual Cricket Match

The Lago All Star Cricket Team will play the C.P.I.M. Cricket team in the two companies' annual cricket tournament on Saturday, May 31 through Monday, June 2. At present, the trophy held by the winning team each year, is in Curacao as a result of C.P.I.M.'s victory last year. The tournament location alternates between Aruba and Curacao each year. This year's matches will be played in the Lago Sport Park. In keeping with the usual custom, the cricketers will also engage in ping-pong and hilliard tournaments with Lago employees. These matches, will be played at the Lago Club. Announcement of the cricket players to represent Lago will be announced in the near future.

Four Games Played In Lago Heights Loop

Four games were played in the Lago Heights Softball League the past week. Babe Ruth won its second consecutive game with a 9-3 victory over Caribe Club. The Amstel club split the two games in the Amstel. After losing to Ganes in a close game 3-2, Amstel defeated La Salle 10-8. In the fourth game to be played, San Lucas defeated the Hornets 8-4 for the Hornets' second loss. All games were A Division games. Tropical won by default over the Crackerjacks in the B Division.

Aruba Basketball Champions

LEAGUE CHAMPS: Ng Sang, captain of the Chinese Club basketball team, smilingly accepts the championship trophy from F. E. Griffin, general superintendent. Standing by is a fellow-player, P. Jie-A-Swie. The Chinese Club defeated Lago High School 24-11 to win the league title of the Aruba Basketball Association.

CAMPIONNAN DI LIGA: Ng Lieng, captain di team di Basketball di Club Chines, ta acepta cu un sonrisa e copa di campeonato for di F. E. Griffin, superintendente general. Pará un banda ta un otro hungador, P. Jie-A-Swie. Club Chines a vence Lago High School 24-11 y a gana titulo di Aruba Basketball Association.

Chinese Club Defeats Lago High For Loop Title

The Chinese Club basketball team is the champion of the newly organized Aruba Basketball Association by virtue of its 24-11 victory over Lago High School on Friday night, April 26. The championship game was played before a large gathering of excited fans at the Lago Heights court.

Within a matter of minutes in the opening quarter of the game, the Chinese Club left little doubt as to the eventual winner and title-holder. Not only did the Chinese excel offensively, but their defense completely bottled the Lago downcourt attack. The high school boys were held to one field goal the entire first half. The Chinese, on the other hand, were making most of their height particularly in rebounding off the boards. The champions held an impressive 11-2 lead at intermission.

The high school's offensive picked up in the second half, but fell far short of holding the Chinese Club even. With Ng Sang, captain of the Chinese Club excelling offensively, the eventual winners more than doubled their first half score. The best Lago could do was pull up to 11 points before the final buzzer sounded the high school's death knell at 24-11.

The Chinese Club's points were scored on 11 field goals and 2 fouls. Lago scored its points on 5 field goals and 1 foul. High man for the winners was Sang with 4 field goals and 2 fouls for 10 points. Billy Mello scored high for Lago with 7 points on 3 field goals and 1 foul.

In earlier league activity, the Chinese Club beat the high school in each team's third game, 22-18. The Chinese were handed a defeat midway through the season 29-23 by the Aruba Juniors. The score:

Chinese Club			Lago HS				
FG	F	Pts	FG	F	Pts		
Sang	4	2	10	Gray	0	0	0
Chin	0	0	0	Griffin	0	0	0
Sieun	2	0	4	Mello	3	1	7
Chong	0	0	0	Fraunce	1	0	2
Siong	1	0	2	Carroll	0	0	0
Chick	1	0	2	Norcom	0	0	0
Wong	0	0	0	Macrini	1	0	2
Yee	3	0	6	Smith	0	0	0
				Rosborough	0	0	0
				Gladman	0	0	0
	11	2	24				
					5	1	11

Courtney W. Shropshire, Jr.

Courtney W. Shropshire, Jr., an engineer "A" in the Technical Service Department, died at Lago Hospital May 2, at the age of 34. He is survived by his wife and two sons. He had Lago service of ten and a half months.

Club Chines A Gana

(Continua di pagina 1)

atakenan di Lago. E muchanan di "High School" a worde teni ariba un banda di veld durante henter e promer parti. E Chinesnan, na otro banda, a haci mayoria di nan progreso particularmente door di tira e bala contra e borchí pa e cai despues door di e net. E campeonnan a tene un adelanta impresivo di 11-2 na intermision.

Ofensivo di High School a bira mas fuerte den di segundo mitar wega, pero asina mes esaki tabata hopi menos cu ofensivo di Club Chines. Mientras Ng Sang, Captain di Club Chines, a demonstra su superioridad den ofensivo, e vencedornan prospectivo a mas cu redobla e score cu nan tabatin pa e promer mitar. Lo mehor cu Lago por a haci ta di yega 11 punto promer cu e fluit final a resonancia anunciando e derrota mortal di High School cu 24-11.

E puntanan di Club Chines a worde haci cu 11 goal y 2 penalty. Lago a haci su puntanan cu 5 goal y 1 penalty. E hungador cu mas punto pa e vencedornan tabata Sang cu a score 4 goal y 2 penalty, siendo un total di 10 punto. Billy Mello a hata mas punto pa Lago cu un total di 7 punto, cu su 3 goal y 1 penalty.

Curacao Defeats Aruba In Olympic Test Matches

The Aruba National Football Team lost to the Curacao National Team 1-0 on Sunday, April 27, after playing to a 2-2 tie the preceding day in a weekend of inter-island football at the recently opened Wilhelmina Stadium. The games were two of a series designed to select the 20 best football players from the two islands to represent the Netherlands Antilles at the 15th World Olympics in Helsinki, Finland, this summer.

The selections of the 20 men and three leaders will be made by the Team Selection Committee of Curacao. Announcement of the athletes selected to compete in the Olympics will be made in the near future. At present, the football team is the only Olympic representative of the Antilles.

Saturday's game opened with Aruba scoring. The local team held the lead throughout the first half and into the second before the visitors scored their initial tally. Curacao quickly followed its first goal with another to take the lead. Aruba scored the final goal of the game holding the visitors to a tie.

In the final game of the two game series at the new stadium, the two teams played scoreless ball until the last five minutes of the contest. At this point, Curacao broke through for the only tally which eventually meant victory. The game was highlighted by the fine playing of both teams with particular emphasis on the defenses.

LEAVING LAGO: Employees who left Lago recently were Frederick Buchholtz and Joe Oduber. Mr. Buchholtz, above left, who retired after 13 years service, was presented a cheque by N. B. Stahre on behalf of fellow employees of the TSD Engineering Division. Mr. Oduber, above right, left the Company after serving over 17 years to manage the New Esso Servicenter in San Nicholas. He received a gold wrist watch from members of the Mechanical Department.

TWO WEDDINGS: Miss Gwenneth Swenson of the Executive Office and B. E. Hendricks recently took the big step. Miss Swenson, below left, was married to James Ellor of Process Control on April 16. She was presented a set of china ware by F. E. Griffin on behalf of fellow workers. Mr. Hendricks married Jean Guess, former Colony elementary school teacher, on April 12. He was presented a silver set by R. V. Dowart from fellow workers of TSD Drafting.

Lago Attains Lowest Severity Rate in History

To the worker, the most important statistic regarding safety records that can be published is the severity rate. This is the rate that indicates the chargeable days lost from the job by employees who suffered a disabling injury.

In the case of Lago, the Safety Division recently announced that the refinery's severity rate for 1951 was the lowest in its history.

The severity rate for the manufacturing section was .097 last year as against .242 for 1950, or a drop of .145. For the combined manufacturing and marine sections, the severity rate of 1951 was .137. This was a great drop from the previous year's rate of .580.

As pointed out by the Safety Division, 1951 was a fatality-free work year. The time workers spent in the hospital in 1951 due to the severity of an injury was far less than any previous year. The Safety Division, referring to the continued decline of both the accident frequency and severity rates, adds that over a period of years continued and combined efforts of management, supervisors, and employees plus money spent on safety devices and safer working conditions have made Lago's operations safe. Both accident frequency and severity rates achieved in 1951 were lower than the average of other refineries of comparable size.

Computing Rates

Computation of the severity rate is as follows:

$$\frac{\text{total time charges in days} \times 1000}{\text{number of man hours worked}}$$

The total time charges as applied in the formula is the measure of disability stated in days in accordance with the scale of time charges established by the American Standards Association. An example of time charges in the case of a fatality is 6000 days. The Safety Division explained that when you have a fatality-free year, as Lago did in 1951, the severity rate is low. With a fatality, the rate is high.

The accident frequency rate is as follows:

$$\frac{\text{number of lost time injuries} \times 1,000,000}{\text{number of man hours worked}}$$

The American Standards Association defines a lost time injury as when an employee has been injured in the course of his employment and cannot stand his next regularly scheduled shift.

In figuring both rates, the 1,000,000 and 1000 figures are arbitrary figures arrived at by the American Standards Association and adopted by the American Petroleum Institute. The figures are also used by the National Safety Council in conducting safety contests. In the frequency rate, one million is used since continuous operations run up man hours very quickly.

Schedule of Paydays

Semi-Monthly Payroll	
May 1 - 15	Saturday, May 24
Monthly Payroll	
May 1 - 31	Wednesday, June 11

New Library

FORWARD STEP: Dr. Johan Hartog, librarian of the Aruba Public Library, left, glances through one of the books of the new San Nicholas branch with Dr. W. G. Goslinga, Inspector of Education. Dr. Goslinga officially opened the new branch at No. 1 Van Speykstraat on Friday, April 18.

World Flight

(Continued from page 3)

home with his family for three weeks, decorated his car with tulips on Easter.

From Amsterdam via KLM, the flight stopped at Glasgow, Scotland — where they were rationed to one cup of tea — Gander, Newfoundland, after passing over the huge ice packs of the North Atlantic and finally New York. While in New York, Mr. Lecluse visited Stanley Sankus, a former Lago employee, who is now working in LOF at the Bayonne plant. The two friends took in a round of sight-seeing before Mr. Lecluse boarded a plane for Miami and Aruba.

Looking back over his trip, Mr. Lecluse stated that the actual flight from Aruba to Amsterdam took 25 days. He had no difficulty with languages. His knowledge of Dutch, French, English, and the Malay tongue solved all problems. In passing Mr. Lecluse said he could be dropped off at Hawaii or Bangkok and wouldn't mind it at all.

Sounds nice — so does the trip around the world. Ready to go?

Queen Elizabeth's Coronation Date Set for June, 1953

The coronation date of Queen Elizabeth II has been set for Tuesday June 2, 1953, according to an announcement from Buckingham Palace. An additional Palace communique said that the Queen had appointed her husband, the Duke of Edinburgh, Chairman of the Coronation Commission.

The coronation will be the fourth in Britain in the 20th Century. The three preceding coronations since 1900 were those of Edward VIII on August 9, 1902; George V on June 22, 1911, and George VI, the Queen's father, on May 12, 1937. King Edward VIII, the Queen's uncle, became King and abdicated before being crowned in 1936.

Goat with Extra Parts Is Born in Sabaneta

Hundreds of goats are born every year in Aruba, but none has the miscellaneous collection of extra parts possessed by a kid born last week at Sabaneta.

Juan Thijsen of Marine Launches, who lives at Cura Cabay, reports that one of his goats gave birth May 1 to a freak with no less than three eyes, two mouths, and six legs. It was extremely well-equipped for seeing, eating, and walking.

However Nature does not like to be tampered with, and the unfortunate animal died shortly after it was born.

BO TABATA SABI?

...cu Aruba tin 36 school y cu casi 10,000 mucha ta bai school?

Cu di e 36 schoolnan, 12 ta school di gobierno, y 21 ta school catolico y tres di otro religion?

Na 1947 e schoolnan di gobierno tabatin 879 discipulo y na 1951 esaki a subi na 2053; e cantidad di mucha na schoolnan catolico a subi di 6102 te 7484 den e mes periodo.

REFINERY VISITORS: Recent guests to the refinery were a group of excursionists from British Guiana. The guests were taken on a tour of Lago and during their visit posed in front of the Main Office for the Aruba Esso News photographer.

BISHITANTENAN RECIENTE: Reverendo Walter J. Ballou, S. J., di Jamaica, y Padre B. Anink y W. de Haas, di robez pa drechi, ta para un momento pa combersa cu aprendiznan cu ta studiando atentivamente. Padre Ballou kende a dirigi e Mision na Misa di Santa Theresita, ta un maestro anterior na "College of the Holy Cross", Worcester, Mass. Actualmente e ta pastor di parroquia encargá cu habrimiento di un parroquia noho na Jamaica.

TRAINING SAFETY: Members of Lago Vocational School's first year 1-51 Group recently completed 100 hours without an accident. The youthful trainees average about 14 years of age. Max Jesurun of the Training Division is in charge of the school's safety program.

SEGURIDAD DI TRAINING: Miembronan di School di Ofishi na Lago recientemente a completa 100 ora sin ningun accidente. E discipulonan joven tin mas of menos 14 anja di edad. Max Jesurun di Training Division ta encargá cu programa di seguridad di e school.
